

Disassembling Planet Eclipse Geo3 Macroline

Removing the macroline.

Written By: Rett Triplett

INTRODUCTION

This is a guide to removing the macroline that connects the POPS and the regulator. This is necessary if the macroline is leaking or to disassemble the body.

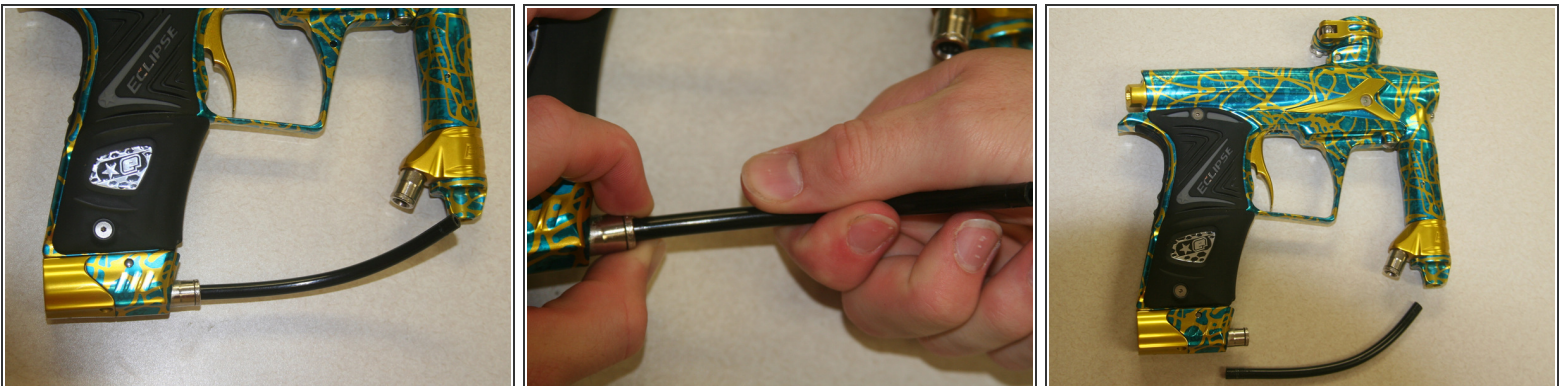

Step 1 — Macroline

- Remove the macroline from the fitting by pulling the metal ring around the end of the fitting away while pulling out the macroline.

ⓘ It helps to rotate the collar to create room to pull out macroline.

Step 2

- While pulling in the metal ring on the fitting, pull the macroline out.

To reassemble your device, follow these instructions in reverse order.
